Foreword

Many keys have opened Garden's doors for the class of 1962 and locked them back again, marking the end of another phase in our lives. We bid good-by to the school that has meant so much to us in the past four years and pause to reopen the doors and look back on the classes, activities, and friends that we remember so well.

And the Day Begins

We have entered through this door to gain greater knowledge and better understanding.

For your advice,

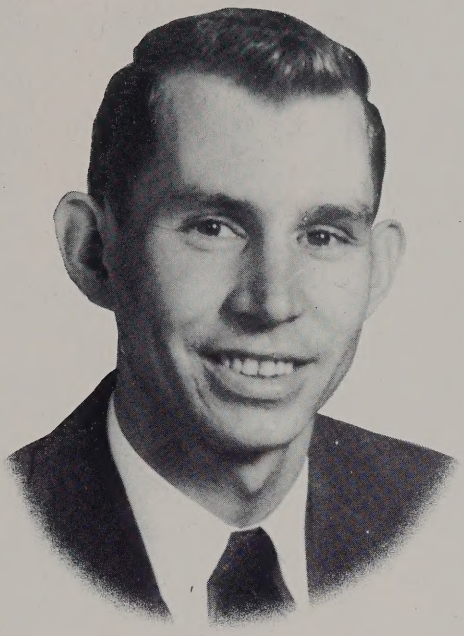
guidance,

helpfulness,

patience,

and inspiration

We Dedicate



The 1962 Garden Echo
to you . . .

Mr. Marvin Rowe

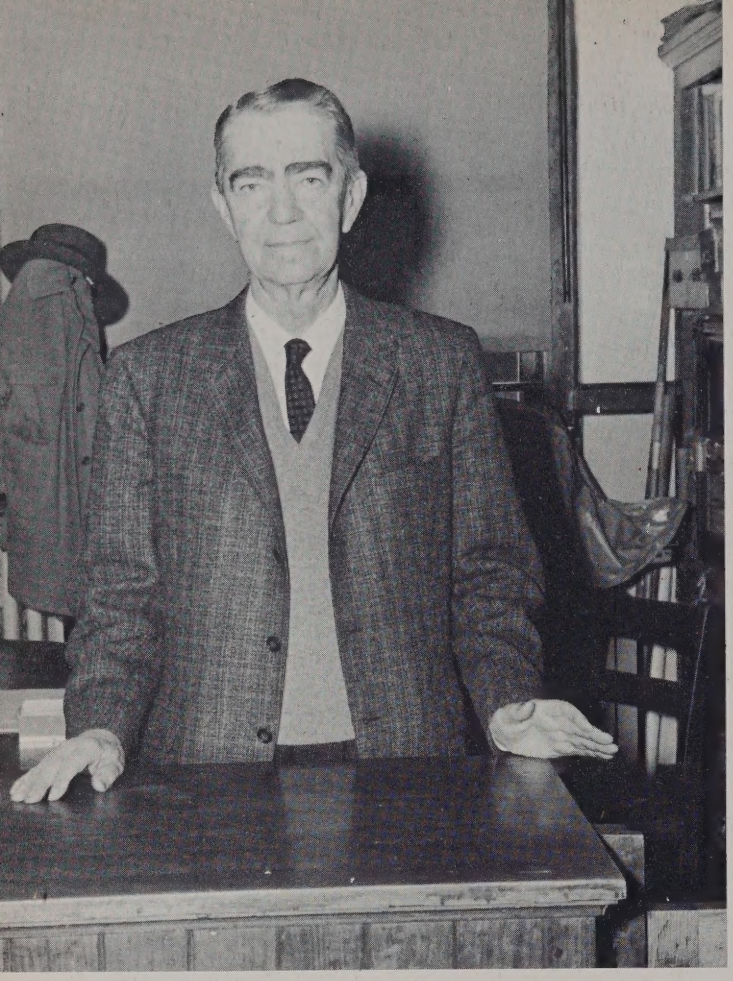
Mrs. Clarice Rowe

Through the Office Door

Mrs. Bertha Shell, our guidance director, gives us personal and vocational guidance in addition to conducting the school's extensive testing program. In the picture above Emma Jean Boyd, a senior, is discussing with Mrs. Shell her plans to continue training in business at a business college.

Mrs. Ann Bohon, private secretary to the principal, is a great help to all, for it is to her that we go for make-up sheets and for permission to leave the school during school hours.

Administration



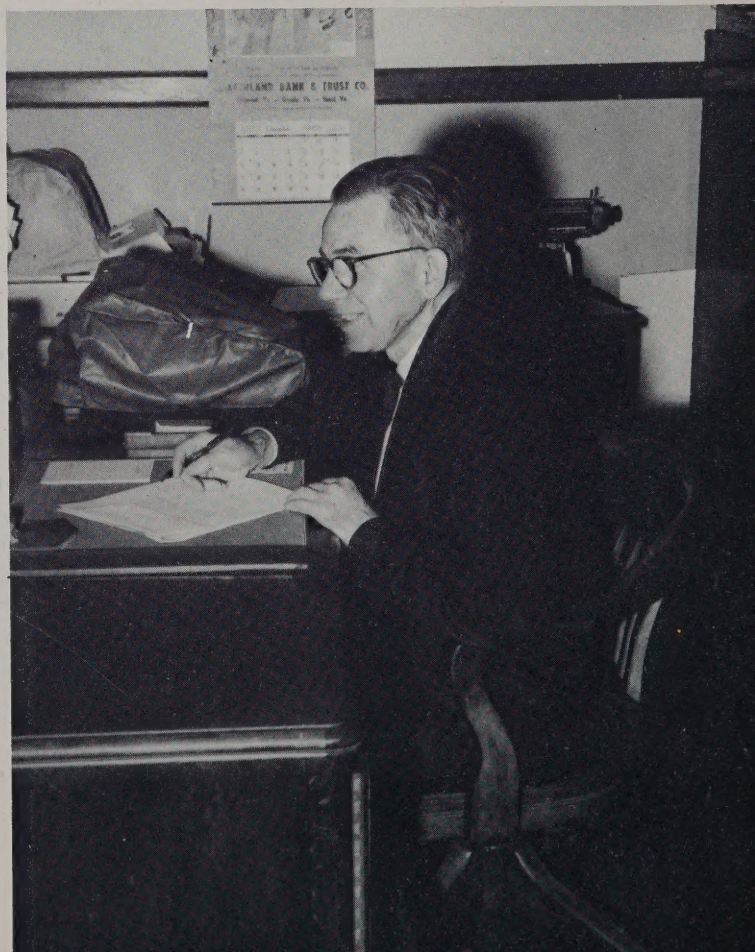
SUPERINTENDENT PERCY V. DENNIS

The Superintendent's Message

Under recent years and present day stress and tension the greatest forces with which to fight Communism and for Free Nations are good homes, good churches and good public schools. In all probability the public schools exert the greatest influence since by organization and training they reach the greatest number of people.

It is my every day prayer that our young people can have the opportunity to grow up normally, enjoy good health, prosperity and happiness with a long life of peace throughout the world.

PRINCIPAL B. T. QUILLEN



The Principal's Message

Garden High School can be the key to the future of the students it serves, for a high school education is imperative in this swift and moving age.

Garden offers opportunities looking to the future in a rather full curriculum and a well-rounded activity program. The former includes the general, the vocational, and the college preparatory fields; the latter is centered in the Student Cooperative Association and includes band activities, a variety of clubs, and participation in the three major sports.

My special message is addressed, not to those who stayed in school to graduate, but to those who come after them: Stay in school. Get into the activity program; but most of all choose, with the guidance of your parents and teachers, the curriculum best suited to you.

To the seniors I say in the words of James Thomson:

"Let thy voice ring out and over the earth
Through all the grief and strife,
With a golden joy in a silver mirth,
Thank God for life!"

These Too Help

Seen enjoying a well-deserved lunch after we are gone are Mrs. Harry West, Mrs. Alta Hay, Mrs. Mack Shrader, and Mrs. Floyd Wampler. They prepare delicious food for our nourishment.

Our custodians keep our building clean, beautiful, and comfortable for us. They are Mr. Ballard Estep, who serves the high school, and Mr. Ellis Rimmer, who serves the grade school.

Our bus drivers safely bring us to school and take us home again. They are Mr. Roger McClanhan, Mr. John Fryatt, Mr. Reece Keene, Mr. David Owens, Mr. Russel Presley, Mr. B. J. Elkins, and Mr. Emerson Brown. Some waited for the photographer to get their pictures taken.

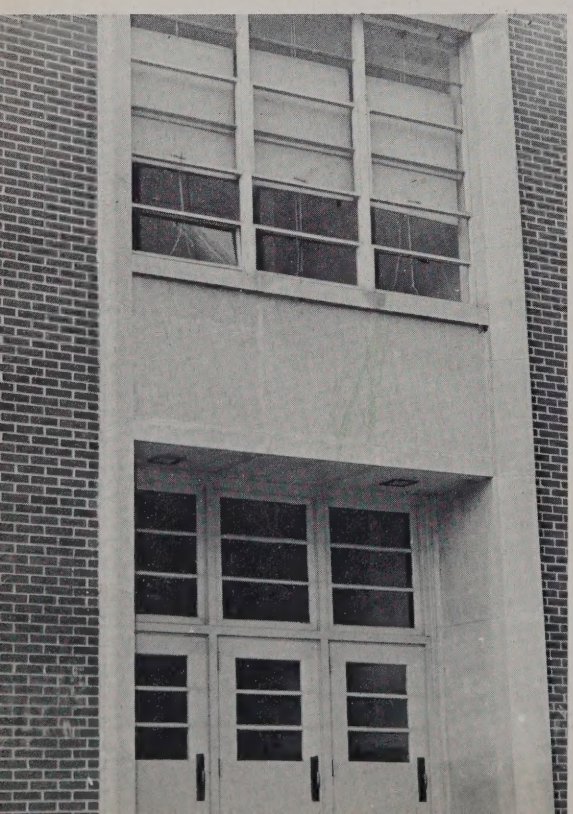
A Close View



May 1962

Dear Elementary Students:

Education is important. Maybe you do not realize it now, but elementary school is the foundation for high school just as high school is a foundation for college; and you must start preparing for it at the beginning of your school life.

The three R's: reading, 'riting, and 'rithmetic are the essential tools for meeting that challenge, and the bigger challenge of deciding your life's goal, the challenge of making your life a rich and successful one.

Fourth Grade

As we stand in the end window of the high school building and look at the elementary school and the students at play, we wish we had put more time into our studies while we were in the early years of school.

Right now you are young and full of life and vigor. You probably don't think much of the future, do you? Well, we are seniors; and we say this to you; Start planning your high school days, your college years, and your life's work, now.

We won't be here when you enter high school. Our high school days are ended; but when the time comes, there will be someone over here to welcome you.

Seniors, 1962

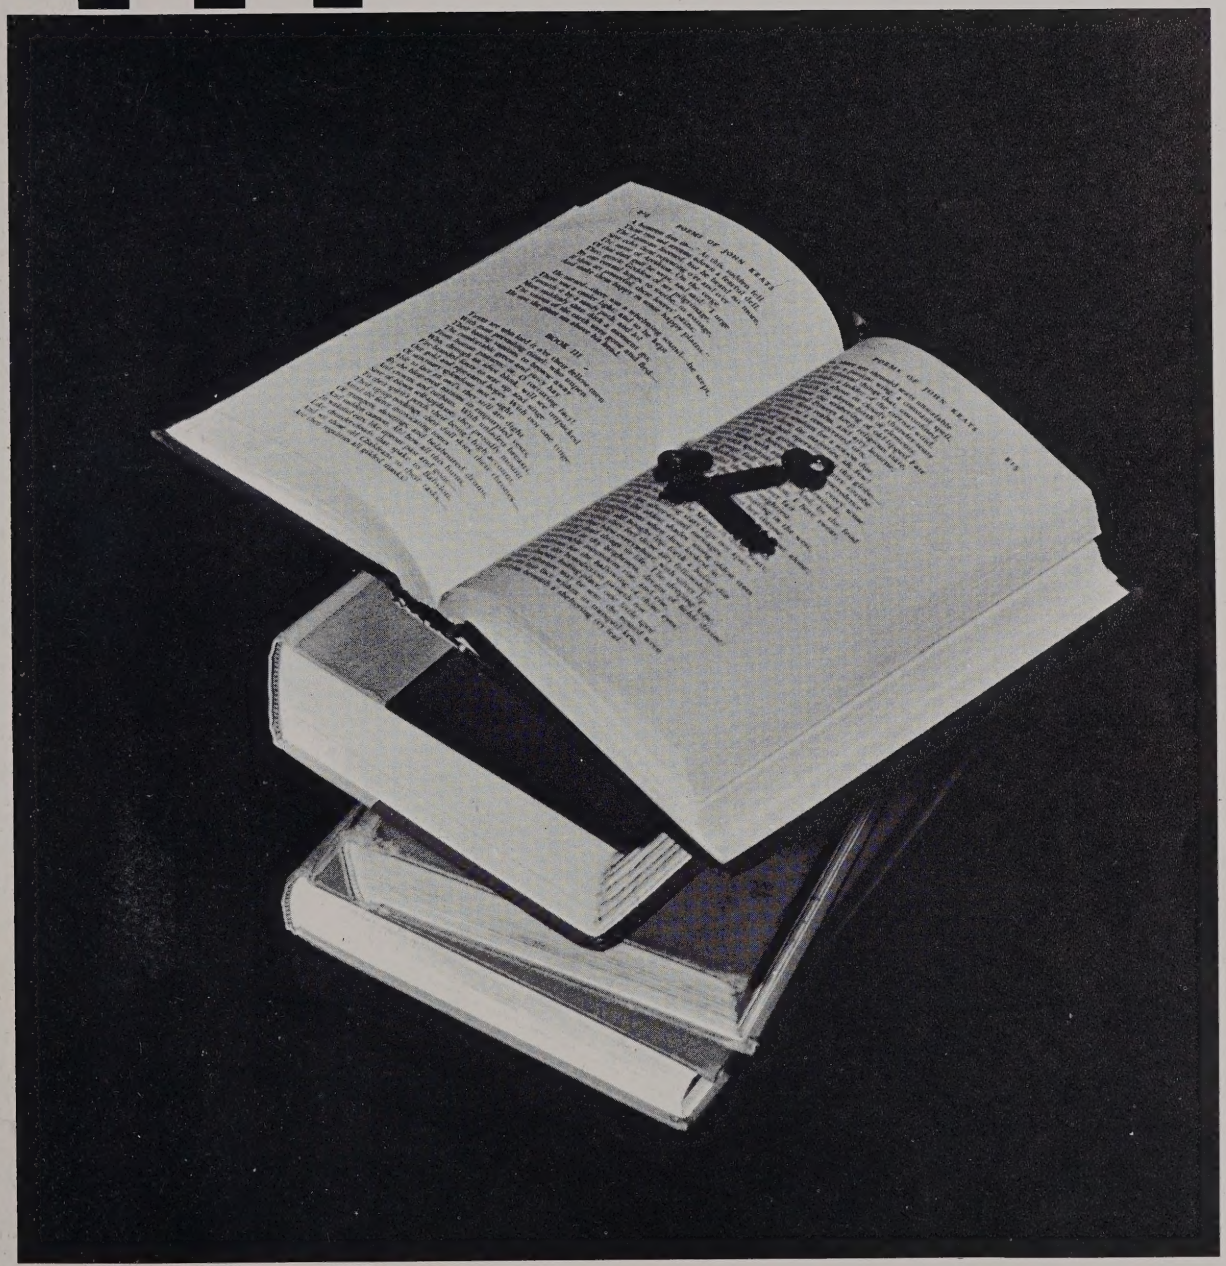
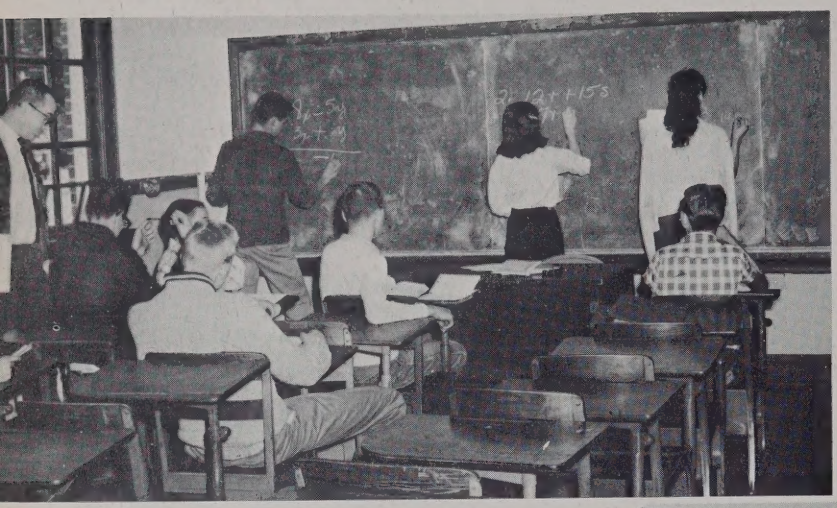
Curricular

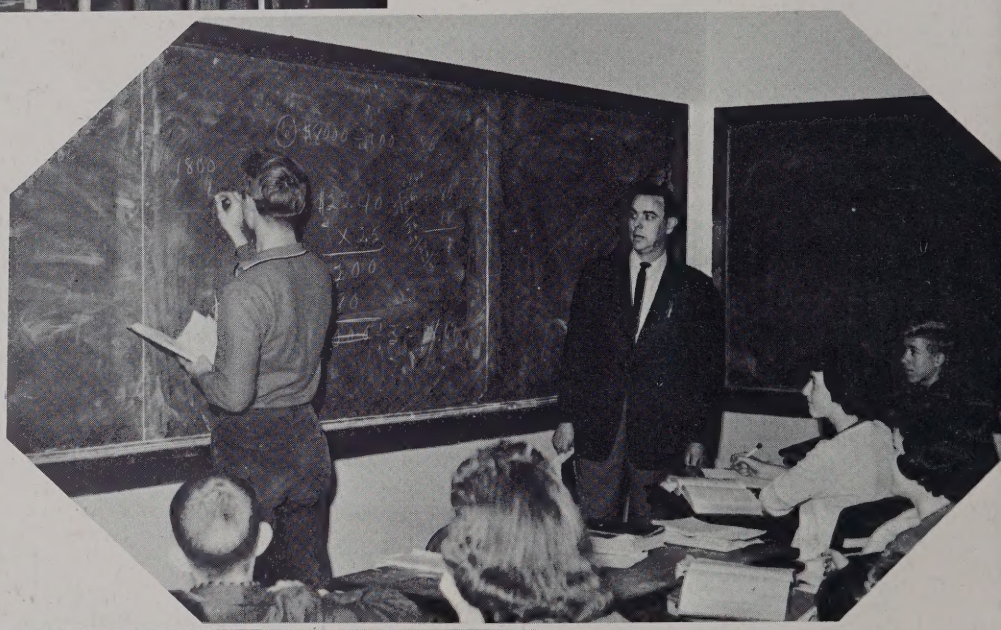


Garden has opened her doors on studies knowledge . . . in a world



Several of Mr. Belcher's Algebra II students put their homework assignments on the blackboard as others check their papers.

Here we see a group of students intently watching a fellow classmate demonstrate how to work a problem, under the watchful eye of the General Math teacher, Mr. Presley.

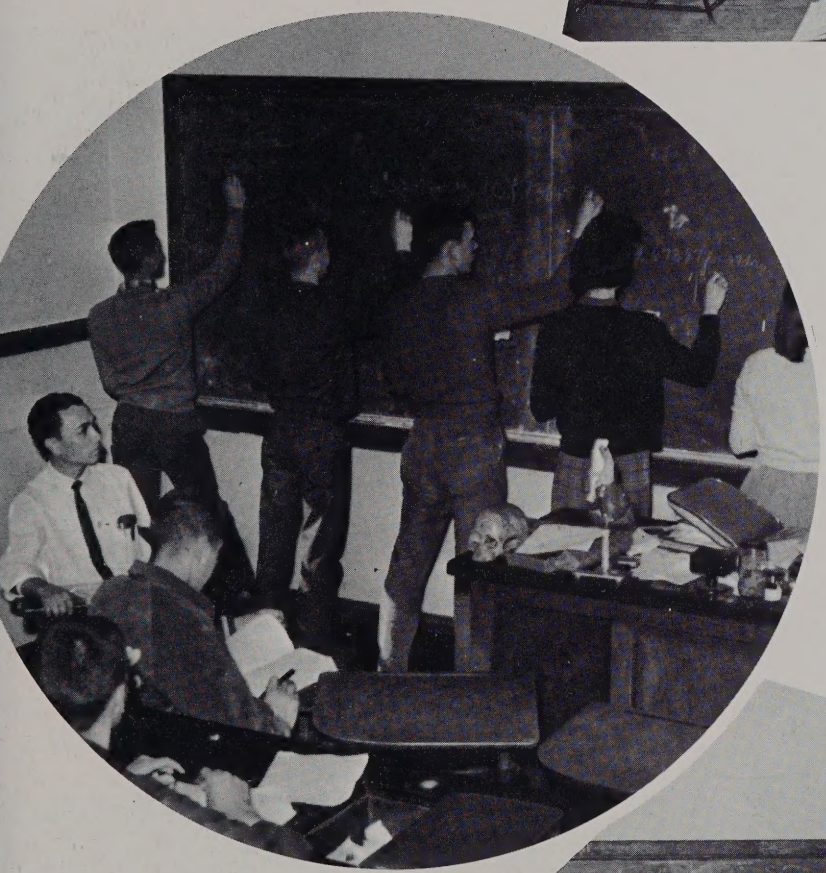


These Solid and Trig students wonder how to find the area of a sphere as Mr. Quillen explains the formula to solve their problem.

so that we might find the key to of Mathematics

MOST STUDIOUS

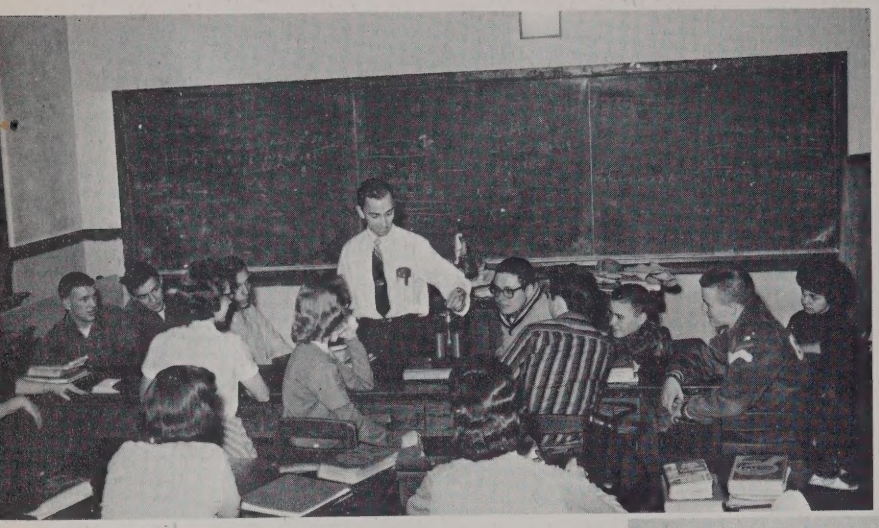
DONNA ADDISON
CLAYTON HALL



These juniors are busy demonstrating their skill in Commercial Math while Mr. Brown keeps a sharp eye out for mistakes.

"A right angle contains ninety degrees," explains Mr. Presley on being asked a question, by one of his Plane Geometry students.

Science



The physics class is watching Mr. Brown demonstrate an electric motor on an electric board.

Studying the organs of small animals is fascinating. At least that's what Mr. Fryatt's biology students think.

Chemistry students prepare to distill water as Mr. Brown makes sure they know the right technique.

Mr. Brown and his ninth grade science students stop for a minute to pose for a picture.

Political and Geographical Expansion

Knowledge of our world is one of the most important factors in education today. Mrs. Wooldridge is busily explaining the European theater of battle, during World War II, to attentive sophomores, while Mr. Rowe discusses a social problem with seniors.

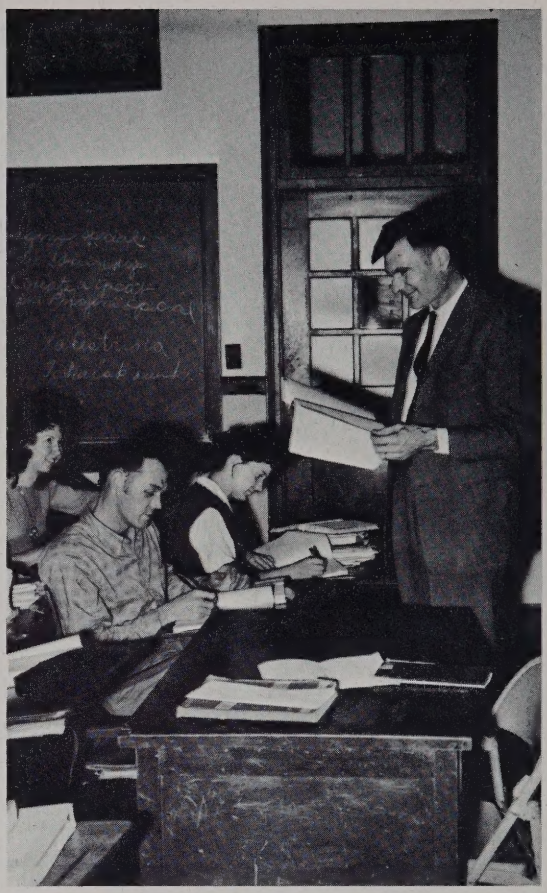
The history of our country seems to leap from the pages in Mr. Rowe's United States History Class.

Civics is not something in a book, but a reality in Mrs. Hagy's class.

Through the study of history and geography these eighth graders acquire a more complete and active knowledge of their country and the world about them.

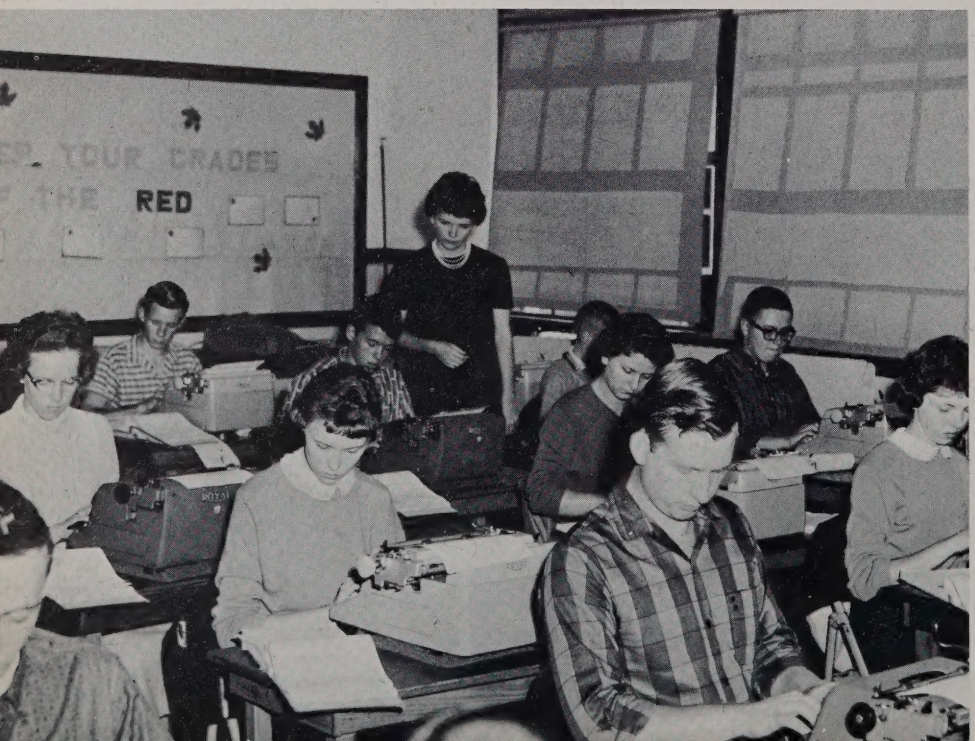
Business . . . . . .

The photographer has caught the second-year shorthand students taking dictation at high speeds under the direction of Mrs. Rowe.



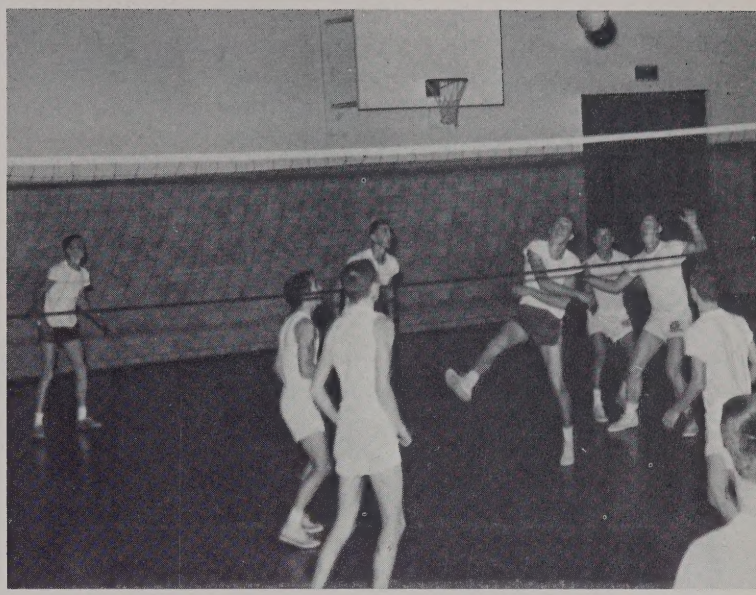
Mr. Tardy, in bookkeeping class, checks the projects and questions with the students after the work had been completed.

The typing students in both the first and second year learn the proper ways to type business form letters and many other things under the careful direction of Mrs. Rowe.



The first year typing and shorthand students are just as busy as the students in the second year classes.

Physical Activities



"Let's dance!" And dance we did as Mrs. Ethel Capps, a dancing instructor from Berea College, visited the physical education classes for three days and taught them many new folk-games.

Thursdays are fun-days, for they bring folk games under the direction of the physical education instructors, Mrs. Hylton and Mr. Fryatt, who are in charge of four gym and health classes each other day of the school week.

Through a healthful combination of exercise and health both girls and boys enjoy a more beneficial life. Garden students PLAY to refute Mr. Kennedy's statement that Americans are becoming a nation of weaklings.

Home Economics is a practical course for every girl . . . . . .

"I hope mine comes out all right," these students think as they work on one of their projects for the year - a homemade dress.

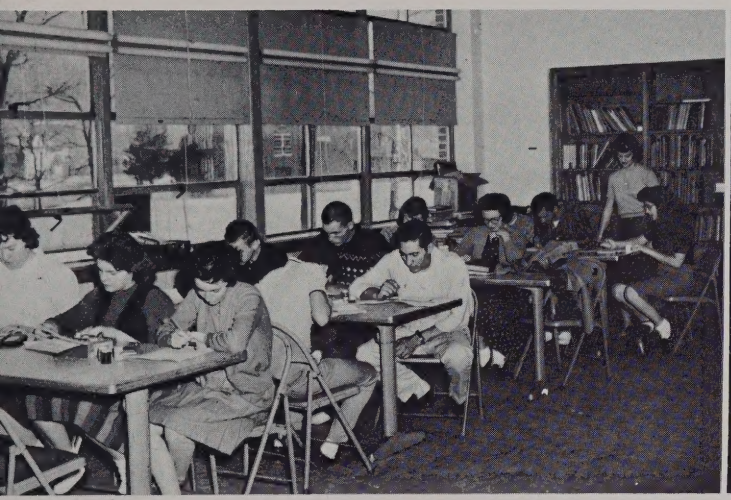
Some day these young ladies may become great cooks through skills learned in the Home Economics kitchen.

Home economics involves the study of design and health as well as sewing and cooking. These three girls are making notes that will help them to practice useful arts.

Mrs. Fletcher is carefully checking the seams of a dress just completed by one of her home economics students.

Our Fine Arts classes prepare us for worthy leisure-time Activities

.....*Art*.....*Music*



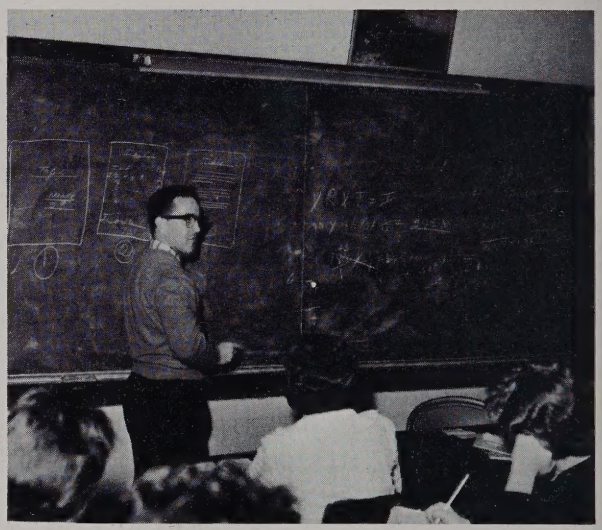
Art is not only beautiful, but absorbing. If you don't believe it, ask these art students in Mrs. Coxton's class. Mrs. Wooldridge took over the class after the second six-week's period.

They say music is rewarding, and it certainly would appear to be true as we glance across the happy faces of Mrs. Wooldridge's music class.

Quiet! Mr. Ferguson and the band are practicing! Our band, now in its second year, has a remarkable record.

We communicate through a thorough through Spanish, and acquire experience

Off to see the wonderful world of America through the study of American literature sail these juniors under the able guidance of Mrs. Shell.



Mr. Blankenship is explaining the proper procedure for writing term papers. Be sure to follow directions, tenth graders!

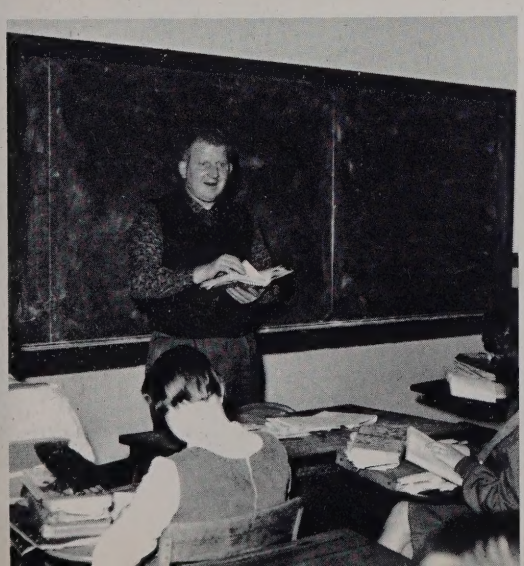
knowledge of the English language, through books in our library . . .

Library assistants, Marcella Van Dyke and Eulala Hale, learn about the Dewey Decimal System with the help of Mrs. Quillen.

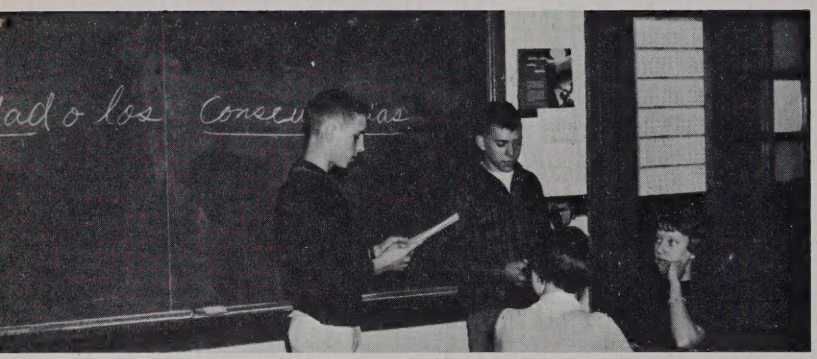
The Spanish I students hear a dialogue in t Spanish language as their teacher, Mrs. Sim son, tells them to escuchar y repetir.

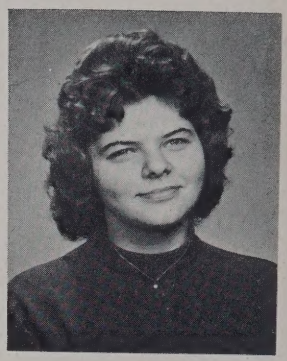
Mr. Riffe begins this ninth grade English Class with an amusing anecdote.



Enthralled, the second year Spanish students listen as a fello classmate reads a Spanish story.

Various Activities and Talents sprang from our educational program





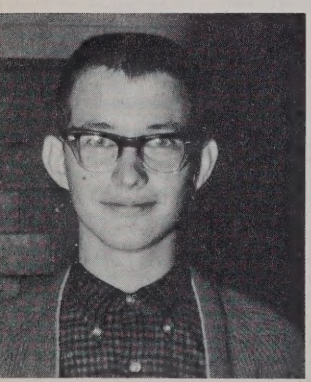
No English spoken here in fear of a fine! Above some Las Empunaduras participate in a Truth or Consequences program. The members correspond with other "Spanish-speaking" students from Madrid to Coasta Rica. They meet in Spanish class once a month.

The first Buchanan County Science Fair will be held at Garden in March. Mr. Brown, Mr. Fryatt, Mr. Riffe, and Mr. McClanahan are busying helping students select projects for this event.

Garden students who entered the Creative Writing Contest last year were Dorothy Sheets, Jerry Jackson, Earlene Simpson, Mary James, Ann Cook, and Larry Bartrum. They received creditable and superior ratings.

In the District Forensic Contest last year after winning in the semi-finals here were Pamela Curry, Brenda Whitley, Jerry Jackson, and Dorothy Sheets. Mrs. Hagy directed the spelling contestants; Mrs. Looney, the reading. This year Mrs. Shell is in charge of the forensic activities, while Mrs. Simpson is directing the one-act play to be entered in district competition March 10. They and Carole Elster, Delores Van Dyke, and Tivis Vance attended the drama-forensic clinic at Wise, February 5.

The United Nations test papers of Donna Addison and Carole Elster were judged best in competition with 40 other students from Mrs. Wooldridge's social science classes and forwarded to the National U.N. Contest office.



The band won an outstanding honor this year when Harry Wayne Taylor was named to the All-State Band, one of the two from this county. Harry played a bassoon at the Festival at Appalachia, February 4. Mr. Fergurson was on hand to see Harry and Jerome Riffe, from Grundy, play.

After a busy two-day course in paper and annual planning, members of the journalism classes pose with their instructor on the Washington Lee campus, where they had attended the Southern Interscholastic Press Association's annual meeting. Both paper and annual won good ratings.

All set to begin work on the 1961 minstrel show are these music students. Mrs. Wooldridge is enthusiastic as rehearsals begin on this year's production, H.M.S. PINAFORE by Gilbert and Sullivan.

Finally, some students attended the Folk Festival at Berea College, last April. Mrs. Wooldridge went with them.

The yearly TriHi-Y highlight is MGA

David Miller, Lieutenant Governor of the 1961 Model Youth Assembly calls the Senate to order in the Senate Chamber in the State Capitol at Richmond. At David's left is Senator Edward E. Willey, who stayed by to help him with knotty problems in parliamentary procedure.

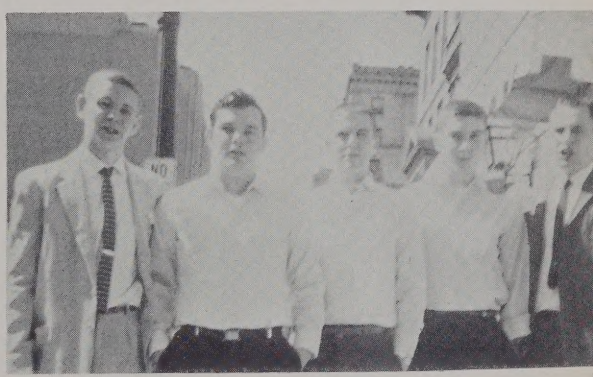
"Look this way," called Mrs. Simpson, Hi-Y sponsor, and snapped the picture, upper right, of David and the "Governor" discussing the "legislative session," on the Capitol steps.

Seen leaving the final meeting of the MGA are Mrs. Sherman Miller, David's mother, and Earlene Simpson, reporter. Earlene has taken copious notes to report the "big story" to the GARDERNER and the VIRGINIA MOUNTAINEER.

Somewhat downcast because Tommy lost in the campaign for Youth Governor for 1962, Tommy, a Delegate, Darrell Cockran, and Eugene Ratliff, aides, a Grundy Delegate, and David pose in front of the Richmond Hotel, MGA headquarters, before leaving for home.

Other Garden Hi-yers at the 1961 MGA were Edmound Wampler, who presented Garden's bill in the House; Christinia Allen, who presented it in the Senate; Betty Jo Queen, a Delegate; and Patty Deskins, a page.

Tommy returns to MGA this year. He is shown in the picture below with Victor, Carl, and Mr. Rowe, before their new emblem, which they used at the District Hi-Y meeting last fall at Grundy, where Tommy was elected assistant doorkeeper of the House.



Membership of the Junior Hi-Y (below)
Robert Hughes, president; Edward Matney, vice-president; Mickey Addison, treasurer; Lonnie Matney, secretary; Wayne Elswick, chaplain; Woodrow James, historian; Larry Null, Gilmer Wade, Millard Dye, and Steve Smith.

We won the ball

Lovely Linda Hagy, a freshman, and the daughter of Mr. and Mrs. James Hagy, Oakwood, Virginia, was crowned Homecoming Queen by Principal B. T. Quillen, October 7, at Vansant Ball Park where the Garden Green Dragons defeated Hurley 35-6.

With this design an alert Bulletin Board Committee sparked the enthusiasm of the whole school over the Homecoming.

The 57 black-and-red Ford convertible completely covered with white flowers and with FBLA (for Future Business Leaders of America) in red flowers captured first place rating in the float competition. Second place winner was the Hi-Y's float, a large globe surrounded by a group of singers, symbolizing world peace. The music class's large green and white football was chosen as third-place winner.

Proudly guarding a huge Green Dragon the cheerleaders led the parade.
Queen Linda led the procession from the parade grounds.

Coaches John Fryatt and Jack Riffe led the boys through victory and defeat throughout the football and basketball seasons.

The well organized football team, under the leadership of its fine captains, Tommy Owens and Harve Davis, had a very successful year. Richard Abbott, center, was lost to the team through injury he received in the Castlewood game. Even though all of the games weren't won by our energetic team, the fine spirit of cooperation that prevailed encouraged the students to a re-birth in school spirit.

OUR
Ever-Present
CHALLENGE

The prosperity and individual freedoms we enjoy today are hard-earned gifts from our forefathers and must never be taken for granted.

Each new generation must stand on its own feet and preserve these freedoms.

The freedoms we enjoy through the American Way have a high price and must be earned over and over.

W. Somerset Maughan expresses it this way: "If a nation values anything more than freedom, it will lose its freedom; and the irony of it is that if it is comfort or money that it values more, it will lose that, too."
